The planets at the time of birth are as follows.

Sun is in 2nd house from own house, Saturn and Moon are in 6th from own house, Venus is in 12th from own house, Mars is in 8th from own house, Jupiter is in his own house in Pisces and Mercury is in his exaltation house in Virgo.

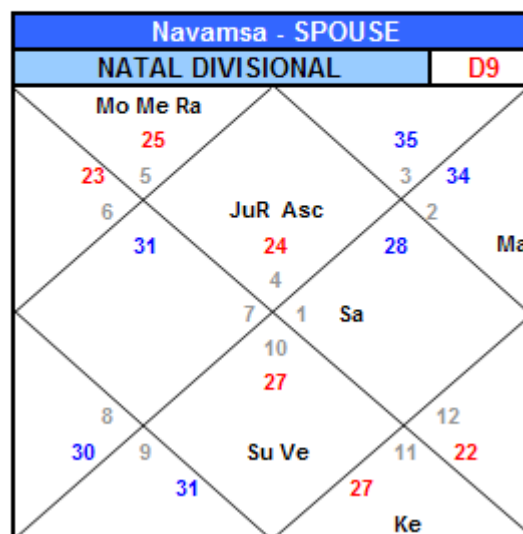

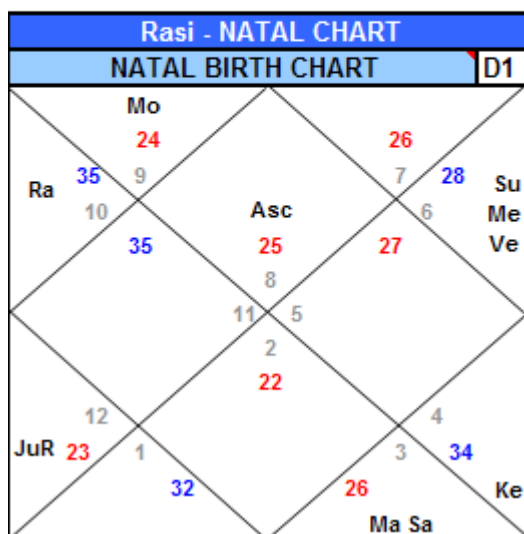

Lagna is Scorpio with Navamsa of Cancer.

Focusing on Navamsa, we can see that Moon, Mercury and Rahu are in Navamsa of Sun, Jupiter is in navamsa of Moon in sign of cancer its unccha sign, Mars is in navamsa of Venus (Taurus), Saturn is in navamsa of Mars in the sign of Aries, Venus and Sun are in navamsa of Saturn in the sign of Capricorn and Ketu is in navamsa of Saturn in the sign of Aquarius.

In this chart there some very powerful combinations due to 4:10 relations. In this chart, Saturn has become very powerful due to planets in 4th place from it. Similarly Mars and Saturn are in same sign and same nakshatra making them samdharmi. Mars too is in 10th place from Su, Me and Ve and its samdharmi to powerful Saturn. The power is transferred to Saturn as Saturn is more malefic as compared to Mars due to the fact that Saturn has 2 bindus and Mars has 3 bindus. Therefore the point from Mercury is transferred to Saturn making Saturn powerful. Since Mars is also powerful samdharmi to Saturn and it too is malefic in nature both natural and point wise it has less than 4 bindus, so the planet in 4th place also become samdharmi i.e. the planet with more than 4 bindus.

If you see the Rasi and navamsa charts, you will see that many planets are samdharmi to the most powerful planet which is Saturn. Mars is samdharmi to Saturn, Sun and Mercury are in 4th place from Saturn and become powerful samdharmi to Saturn. Rahu represents Saturn and Ketu is samdharmi to Saturn by the virtue of being in the navamsa of Saturn. Only Moon and Jupiter are not samdharmi to Saturn however Saturn is giving power to by these planets by its aspect i.e. it aspects Moon by 7th sign and making it stronger by +6 and it aspects Jupiter by 10th sign making it powerful by +6 and therefore in the above KAS power chart you can see that Mo and Jupiter too have become very powerful for all 12 house.

Now, there is a question is that what has made this chart a chart so powerful that has raised the status of a man who started by painting billboards to a famous and renowned painter and a story of rags to riches.

For that we studied the above points about how the planets have become very powerful to the planet Saturn and Saturn is also samdharmi to Mars by being in the navamsa of Mars and conjoining it in the same sign and same nakshatra in Rasi chart. So all planets have relation with the most powerful planet of Saturn in this chart and Saturn is in 6th sign from its own house i.e. Capricorn which is the 3rd house. 8th house is that of creativity, research, deep thinking, patents etc. So the KARAK planet (Saturn by being 3rd lord) for 8th house has come into Plal sthan i.e. 8th house enhancing the power of 8th house and quality as well. Now the KARAKANSHA of 8th house is Mars (the navamsa lord of KARAK so here for 8th house, Saturn is KARAK and its ansha in D9 is placed in sign of Aries which is ruled by Mars and that is why KARAKANSHA of 8th house is Mars) and natural KARAKANSHA of 8th house is Sun (Mercury is the natural 3rd lord of Gemini and its in navamsa of Sun) and now mapping these back into Rasi chart, Mars is placed in House B i.e. KARAKANSHA is also placed in House B and its in 6th sign from 8th house along with KARAK and this has further made 8th house very powerful and has made MF Hussein ji very creative and with his paintings having deep meaning. The interpretation of the painting by people is different and out of the scope of this document. Now studying the MOOL KARAK AND MOOL KARKANSHA BOTH NATURAL AND FUNCTIONAL of 8th house is as follows. Mool KARAK for 8th house is Sun and natural mool karak is Shani. MOOLKARAKANSHA Or MOOLANSHA Saturn and NATURAL MOOLANSHA is Mars. Mars is again placed in House B which is 8th house with KARAK and FUNCTIONAL

MOOLNAHSA is Mars and that too is placed in House B which is 8th house. So both Karaks and Mool Karaks and their anshsa i.e. Karakansha and Moolansha are related to 8th house which is House B making it very powerful.

Now let us study a basic fundamental of a chart which is that the Maharishis have allocated Mars and Saturn which are two naturally malefic planets the most important house of the birth chart which is the house of 1st its KARAK 8th house and the 10th and 11th house i.e. the KARAK of Parakram and Sukh and Happiness i.e. 3rd and 4th house. So these planets are very important planets and if in any chart if these planets have relation to the 10th house and 5th house in NAVAMSA i.e KARAKANSHA AND MOOLANSHA and also when they are mapped back and placed in KSHETRA OF SATURN AND MARS then such relation makes a person rise a lot in life.

Now lets check the navamsa and moolkarak for 10th and 5th house in the table below and their relation when they are mapped back into Rasi chart.

If you check the 10th house then you will notice Saturn appearing 3 times and along with 2 of Sun and 1 Mars and for 5th house you get 3 Moon and 1 Mars and 1 sun and 1 Venus. When they are mapped back you can see the huge influence of Mercury for 10th house in both 10th and 5th house showing the deep thinking and imagination in his career. His thoughts and representation of depth of thought is via his paintings. Saturn is also a Natural Samdharmi of Venus and Venus also represents Saturn functionally in this chart. Sun also appears 3 times and Sun is a planet of leadership and natural karak for 10th house. So this also shows that the native will be a leader or famous in his field and will have a stupendous rise in life. We also can then go deeper into the rest of the divisional charts and nadis however that portion is more advanced and for now out of the scope of this document. Suffice to say that this chart has become powerful just by the study of Rasi and Navamsa and the makeup of the points.

Now there is one point that also must be demonstrated. Here the KARAK for 6th house which is that of work is Lagna and its lord is Mars and Mars is both Natural and Functional KARAK for 6th house in this chart and here in this chart its in 8th house from its own house i.e. its placed in 8th house. This reduces the power of Mars so that is the basic law, however in this chart, Mars has become very powerful samdharmi to Saturn and Mars too has less points i.e. 3 bindus and its in 10th place from 3 planets so its also samdharmi to Venus and Sun. However we are not transferring power to Mars as Saturn is more malefic than Mars but Mars has become powerful samdharmi to Saturn and its power that is lost due to its placed in 8th from own house has become compensated and has become powerful. Let study this mars in further detail. The Karakansha of 6th house is Venus and Venus is placed in House E for 6th house and in 11th house from Lagna thereby making it powerful as well. So

this Mars has become powerful and it cannot be considered weak. Mool Karak for 6th house is Mercury and Moolansha is Sun who is in House E for 6th house or in 6th from 6th house thereby making it powerful. So 6th house has again become powerful.

Lets study the 1st house of the chart. 1st house has 25 bindus and its Karak is Mercury and Karakansha is Sun. Sun is placed in 11th house from Lagna so in upchay sthan and natural karak is Mars and natural Karakansha is Venus who is also placed in 11th house in upchay sthan making 1st house powerful. Mool Karak is Saturn and Saturn is placed in 6th from own house in Rasi and placed in the sign of Mars so natural Moolansha is also placed in karaksthan making it powerful. So 1st house has become powerful.

Cnfdnce	Lg	Su	Mo	Totl	Agv +/- %
MF	0.5	1.6	1.2		
SAV	25	28	24	77	-8.33%
SAV*MF	13	45	29	86	2.50%

Studying the same from Lagna, Sun and Moon and adding the multiplication factor for quality one can see that the confidence is good and he can take firm decisions. His 3rd house points are 35 and that shows his dreams are big and once he makes a decision he has the capacity to follow though.

Death of M F Hussein's mother happened in the antra of Venus. Venus is LoD for 10th house and its also a powerful samdharmi to Shani who has the highest power for 10th house. (10th house is 8th from 3rd house which indicates the death of Mother).

Now the question is why is it that in this chart the native's happiness of mother was virtually non-existent? The answer lies in the in the study of the samdharmi between Mars and Saturn. Mars represents SELF and Saturn is the lord of 3rd house which is that of Mother. In this case, Saturn and Mars have become powerful samdharmi and here Mars is aspecting 3rd house. We know that a powerful planet's aspect is also equally bad and here in this case, Mars has become powerful by become powerful samdharmi to Saturn and Mars aspects 3rd house which is of Mother and as per the basic laws of KAS, when a planet aspects House B, it will reduce or deny the happiness of the house. The more powerful the planet is the more malefic will be the aspect. So here Mars which is Self has been denied the happiness of 3rd house which is of Mother.

Started his career in the antra of Rahu. Rahu is in House D for 6th house. Rahu represents Saturn and Mars and Saturn has highest power in 6th house and its LoD. There is a special law which states that Rahu and Ketu when they are placed in House D or E, become VERY eager to give the result. So in this case Rahu has given M F Hussein ji his start of his career.

The death of M F Hussein ji took place in the Mahadasha of Saturn and in the antra of Jupiter. Saturn is 3rd lord and Functional Karak for Death and the antra is that of 5th lord or LoD which is Jupiter. Jupiter is placed in 5th house in its own house and is in retrograde motion which makes it very powerful as astronomically an outer planet that is in retrograde motion will have its rays reach earth directly as Earth will come between Jupiter and Sun. Therefore in traditional Jyotish a retrograde planet is said as akin to an exalted planet and this is the astronomical reason for it. A planet when it comes in its exaltation sign, then that sign is when the sign is closest to earth and therefore the impact of the planet that is felt is maximum and hence the term Exaltation. Similarly when a planet is in retrograde motion, then for outer planet, Earth comes between the outer planet and sun and for inner planet i.e. Venus, Mercury and Mars, it's the planet that comes between Earth and Sun and therefore the impact of a retrograde planet is maximum. A planet that is in its exaltation sign and in retrograde motion would have maximum impact. That said, in this case, LoD is placed in House D and its in retrograde motion and its power in the WS is 333 which is the HIGHEST power planet and most eager to cause death.

Death is considered the most auspicious event as per KAS and it takes place in the planet that has the highest power. The daily points in this case are also in the rising trend.

M F Hussein ji died away from his home as Saturn is 3rd and 4th lord and its samdharmi to Venus who is 12th and 7th lord. This can indicate that death has happened in a place away from his home land.

3. CONCLUSION

This analysis has been done to demonstrate the how a chart is to be read using KAS using the laws that have been given by Guru ji. One important fact is that the Worksheet which shows the KAS Power that is derived in this system is fixed based on the birth chart and the divisional charts and it cannot be changed nor manipulated thereby fixing the basis for study. These points remain constant for all the astrologers who are studying KAS and therefore the possibility of coming to the same conclusion is extremely high.

There are some powerful concepts of 4:10 relationship and samdharmi and the detailed study using Karakansha and Moolansha have been demonstrated in how it's used in KAS. This is the first level of detail that has been used and for the study of this chart. As we progress further and the collective knowledge of KAS grows, we shall be able to further delve further into the depths of KAS.

For the scope of this chart reading using KAS the technique is how to study and approach a chart and on how to study a chart. This chart was a good candidate for study and we hope that this chart explanation will be beneficial to the KAS aspirants to understand some of the advanced portion of KAS.
